SHOOTING AT EDGOTEN

Jim White, a Fifteen-Year-Old Boy Uses Pistol on Will Carter.

5 SHOTS WERE FIRED.

Boy Held Under \$200 Bond and Will Be Tried This Week.

Jim White, a boy about 15 years old, shot and wounded Will Carter, aged 23, a section hand on the Tennessee Central Railroad, at Edgoten, Saturday. One report is that Carter had imposed upon the boy, who secured a pistol and renewed the difficulty, shooting Carter in the arm and shoulder. The wound is slight. White gave himself up and was put under a \$200 bond by Esq. Walton Garrett. The trial will come up one day this week.

He was a son of the late Jim Henry White, of Lafayette, and a step-son of Will White, formerly of Newstead. White is operator in the Home Telephone office at Edgoten.

Much Appreciated Favors.

Mr. John W. Foard, of Church Hill, desires through the Kentuckian to thank all his friends for the many kindnesses shown him since the fire which destroyed his residence and much of its contents. Words are inadequate to express his appreciation of same.

THREE LICENSES ARE ISSUED

Matrimonial Market Getting Rather Brisk After Lull of Two Weeks.

ONE TENNESSEE BRIDE.

Two Weddings Occurred and the Third is Scheduled for Tomorrow.

A midnight marriage occurred at police headquarters Saturday night, the contracting parties being George May, of Pembroke, and Miss Annie Gowley, of Robertson county, Tenn. The young people arrived in the city on the L. & N. accommodation and went directly to the county clerk's office, but found it closed. They then repaired to police headquarters for the purpose obtaining information concerning the matter of securing a marriage license. An officer telephoned Deputy Clerk Wicks and he was soon on hand. The next thing in order was to secure the service of a minister, and, although the hour was quite late, the Rev. A. C. Biddle consented to come down town and tie the nuptial knot, after which the couple departed. Mr. and Mrs. May will reside near Pembroke.

Boyson-Colley.

W. H. Hopson and Miss Sestie Colley, well known and popular young people of the Hawkins neighborhood, were united in marriage at the home of the bride Sunday night. The Rev. Joel Hopson, of the Baptist church, performed the ceremony.

THE UNION IN- STALLS OFFICERS

Organization Firmly Established in Kentucky.

22 COUNTIES IN IT.

Headquarters of the President to be Near Center of State.

Paducah, Ky., Aug. 10.—After the Kentucky convention of the Farmers' Union adjourned at 3 o'clock Saturday, the delegates marched down the length of Broadway with their county banners and dispersed at the foot of the street. The executive committee was in session all day, but gave out none of its proceedings. It is probable that Secretary Barnett will have his headquarters toward the center of the State, where we will be in better touch with central and eastern sections, having secured a good foothold in the west. Twenty-two counties were represented at this convention.

At the morning session the following State officers were installed: President, Robert Johnson, Tolu, Crittendon county; vice president, A. L. Wilson, Hickory Grove, Graves county; Champlain, W. L. Moore, Paducah; conductor, J. L. Robertson, Mayfield; secretary-treasurer, R. L. Barnett, Paducah; doorkeeper, J. C. Denton; executive committee, Like Thomas, Folsomdale; Sam P. Jones, Cunningham; John Grady, Calvert City; T. B. Latta, Fulton, M. B. Tapp, Woodville.

It was announced that a meeting of State presidents will be held at Memphis, August 26. There are twenty-six States in the organization, principally in the West and South.

The organization, repeatedly went on record as being opposed to night riding and lawlessness.

tist church, performed the ceremony.

Chapman-Weaver.

A marriage license was issued James A. Chapman and Miss Annie F. Weaver yesterday. The young people live near Lafayette and the wedding is scheduled for tomorrow. Rev. Archer, of Lafayette, will officiate.

THREE WINNERS

In Messenger's Popular Lady Contest.

The Messenger's popular lady contest closed Saturday night. There were three winners, as follows: District No. 1, Miss Maida Younglove, daughter of Mr. Geo. W. Younglove, of this city, who received 17,994 votes; district No. 2, Miss Laurie Thurmond, daughter of Mr. John C. Thurmond, of Gracely, who got 12,959 votes; and District No. 3, Miss Annie Bruff, daughter of Mrs. Jas. Bruff, of this city, who had 10,610 votes.

Capt. E. W. Clark, business manager of the Messenger, accompanied by Mrs. Clark as chaperon, will go with the party on the free trip to Niagara Falls, Canada and other points. The party will probably leave Friday.

SKULL CRUSHED.

Colored Child Killed By Cars Near Crossing.

Ora Bradshaw, an 8-year-old colored girl, was killed by the Dixie Flyer near the Clarksville crossing Sunday afternoon about 5:40 o'clock.

The child, in company with several other children, was playing near the track and when the train was seen approaching they attempted to cross the railroad. All cleared the track but the Bradshaw girl, who was struck on the forehead by the pilot and engine, killed.

CITY COUNCIL HOLDS MEETING

But Fails to Get Through Volume of Business On Hand.

MEETS FRIDAY NIGHT

To Consider Sanitary Condition of the City on Complaint of Health Board.

The city council met in regular session Friday night with all the members present. The usual monthly reports were received and filed and the budget of accounts allowed, amounting to \$335.27. Also the City Light Co's bill for July was paid, \$536.69.

The colored Baptist church was given permission to sell refreshments during the state association this week, without license.

The condition of the streets was given considerable attention and the work for August was outlined in a report from the street committee.

Central avenue, from the railroad to Belmont, is to be repaired and some general repairs will be made. The street sweeper is to be started up and the streets given a thorough cleaning.

Half a dozen city maps for the different departments were ordered to be framed.

An ordinance was passed prohibiting the keeping of more than five pounds of dynamite in any business house in the fire limits. All explosives will be required to be kept in a magazine in some isolated place. One or two pavement ordinances were given their first passage.

The principal matter up was the complaint of Dr. J. B. Jackson, county health officer, and Dr. R. L. Woodward, city health officer, that Little River was being polluted by sewers from private sewers until the stream was a menace to health. The Board of Health has given notice that steps must be taken to abate the nuisance within 20 days, or prosecution will follow. This subject in all its phases will be considered at an adjourned meeting next Friday night.

Senses of Insects.

Insects guide themselves in flight almost entirely and on the ground partly by means of their faceted eyes. The antennae and the buccal sensory organs cannot help in aerial steering. Insects perceive the motion of objects particularly well—i. e. the displacements of visual images relatively to the compound eye. They therefore see better when on the wing than at rest, for during flight the image of immobile objects is displaced relatively to the eye.

Insects distinguish the contours and forms of objects only more or less indistinctly.

Insects appreciate the direction and distance of objects very clearly during flight by the aid of their compound eyes. They can also appreciate, even when at rest, the distance of immobile objects.

Certain insects (bees, bumblebees) distinguish color clearly and recognize colors better than forms. Among others (wasps) the perception of color appears, on the contrary, to be very rudimentary.—"Senses of Insects."

The Japs as Jokers.

In the days of the second empire Baron Gros was sent to Japan to demand the opening of certain ports to French commerce. Among the rest he named to the Japanese ministers a certain city. The Japanese functionaries smiled so broadly when he preferred the request that the French ambassador asked them to tell him what gave them so much amusement, but instead of answering the Japanese ministers said:

"We will open the port in question, my lord, if France in her turn will open a certain port to us."

"What port is that?" asked the Frenchman.

"The port of Liverpool."

"But, your excellencies," laughing, "Liverpool is not a French port, but an English one."

"Yes," answered the Japanese, "and the port you named is not in Japan, but in Korea."

The French ambassador was compelled to admit that the joke was against him.—London Answers.

The Submarine Crew.

Not until you have gone down in a submarine and seen the crew at work can you say you have seen the limit to which it is possible to drill human creatures. No crack company of a regiment, no fire company in any of our big cities, not even the engine force on a man-of-war, is under such discipline as the crew of a submarine. The navy department and the men themselves realize that months are required before even the most capable group of men can be made to work as a unit, perfect as clockwork. There is no time to "break in" crews when once war is declared, and for this reason submarine service is continually and incessantly in war practice. Practice runs in the ordinary sense do not exist. Each time the boat starts out to sea she goes as if for business, the scenes you see being exactly like those that would be enacted were the vessel bent upon actually sinking an enemy.—St. Nicholas.

Two Sides.

She—If a lady loves his wife as much as she loves him, he will stop wasting his money on cigars if she asks him. He—Yes, but if his wife loves him as much as she ought to love a man who loves her money, he will stop if she asks him she won't let him.—Puck.

DANGER IN DELAY

Kidney Diseases Are Too Dangerous for Hopkinsville People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Hopkinsville.

Miss L. A. Hester, 826 North Main street, Hopkinsville, Ky., says:

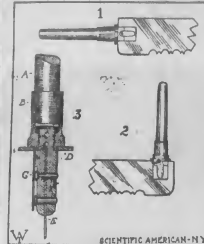

"I honestly believe that there is little need of any one suffering the torture of backache when such an effective remedy as Doan's Kidney Pills can be procured at L. A. Johnson's drug store. The prompt and thorough relief which followed their use in my case has given me abiding faith in their merits. In the summer of 1933, I was suffering greatly from soreness and lameness across the small of my back and other difficulties arising from a weakness of the kidneys. Two boxes of Doan's Kidney Pills was all I required to free me from the distressing pain in my back and restore my kidneys to a good healthy condition. I recommended Doan's Kidney Pills at that time and during the four years which have elapsed, I still have the same good opinion of the remedy."

IMPROVED SAW HANDLE.

May Be Adjusted at Right Angles or in Alignment.

In the accompanying cut is shown a handle particularly adapted for use with a saw, though it will be evident that it may be used for other tools as well. The handle is so arranged that it may be adjusted at right angles to or in alignment with the saw blade. This adjustment permits the saw to be carried without difficulty through the woods, because the handle may be so set as not to project beyond the main

ADJUSTABLE SAW HANDLE.

body of the saw. The details of the handle are best shown in Fig. 3. The handle proper is indicated at A and fits into a socket, B. The lower end of the socket is threaded to receive a member, C. The latter is slotted, and in the slot the saw blade E is fitted. Between the member C and the socket piece B a washer, D, is mounted, and the socket piece B is firmly screwed on the member C it presses the washer D into engagement with the back of the saw blade.

The saw blade is secured to the member C by means of a pair of pins, F, which pass transversely through this member and the usual holes provided in the saw blade. The pins are prevented from slipping out by a retaining piece, G, which is pivoted to swing over them. The usual holes in the saw blade are placed at different distances from the edge in various makes; but, as the slot in the retaining member C is quite deep, these differences will not prevent the handle from being secured to any blade. Figs. 1 and 2 show how the handle may be adjusted in alignment and at right angles, respectively, to the saw blade. The inventors of this handle are Messrs. E. A. Patterson and E. F. Dickinson, Morgan City, La.

LARGEST LACE MACHINE.

Invention For Effecting Economy and Greater Production.

Consult Frank W. Mahin reports that what is claimed to be the largest lace machine ever made has just been built in Nottingham, England. The machine contains many important improvements designed to counteract the influence of a foreign machine of similar character which has proved a serious competitor to the usual type of Nottingham lace machines. The new machine is forty-one feet long and produces lace 200 inches wide. It is intended chiefly for heavy torcons and matted laces.

A special feature of the machine is the entire absence of vibration, a defect fatal to many lace machines. This improvement, which is deemed remarkable because of the machine's great size, is produced by special gear and by an arrangement of concussion springs instead of the ordinary elastic or spiral springs. Other improvements simplify and make easy the operation of putting in threads to replace broken ones and of taking the carriages out of the machine—operations slow and laborious in many machines and sometimes damaging the lace that is being woven. The new machine is so satisfactory that the construction of several more of the same kind has begun.

Tuberculous Milk and Children. William Leland Stowell of New York describes the results of the feeding of the children of some of the wards of the City Hospital for Children on Ward's Island on milk from a city herd that was afterward ascertained to be tuberculous. The herd was tested, and all the animals it had to be killed, as the test showed some degree of tuberculous infection in all. All the children who had been fed on this milk were tested by the ophthalmic reaction, seventy-seven in all. Of these nineteen reacted, thirteen were surgical cases of tuberculosis, and three were not suspected of tuberculosis. The author concludes that fresh, clean milk is more wholesome than pasteurized milk. The danger of infection from tuberculous milk is very slight. Less than 10 per cent mortality in the whole hospital was due to tuberculosis.—Medical Record.

High Temperatures. High temperatures now play an important part in our daily work, and it is interesting to note the following actual temperatures of familiar objects and operations as determined by a new optical pyrometer: Porcelain furnace, 2,498 degrees F.; glass furnace, 2,502 degrees; open hearth steel, 2,785 degrees; melted platinum, 3,235 degrees; incandescent lamp, 3,272 degrees; arc lamp, 7,410 degrees; the sun, 13,712 degrees.

THE STATE UNIVERSITY

LEXINGTON, KENTUCKY.

The State University, Lexington, Kentucky, offers the following courses, namely, Agricultural, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mining Engineering, Classical and seven Scientific courses each of which extends over four years and leads to a Bachelor's degree; also a department of Law and a Department of Education, which last has been established instead of the Normal School. Persons who enter this department prepare for advanced work in pedagogy and are granted a Bachelor's degree in this subject when completed. The Academy for preparatory instruction is retained.

County appointees receive free tuition, privilege of residence in the dormitories, fuel and light, traveling expenses, if they remain ten consecutive months, or one collegiate year.

The laboratories and museum are large, well equipped, comprehensive and modern. Military Science is fully provided for as required by Congress.

The graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculates for last year was 1073. Each department has a specialist at its head, with the necessary number of assistants.

Young women find an excellent home, with board and lodging, in Patterson Hall, which is well equipped with all the modern conveniences, bathroom, hall for physical culture, at \$3.00 per week. All courses of study in the University are open to women on identical conditions with those applying to males.

The completion of the Agricultural, Mining Engineering Laboratory and Education buildings afford ample and commodious quarters for these departments, which are rapidly increasing in the number of matriculates.

FIGHTING THE SEA.

The Amphibious Dutchman and Holland's Battle With Water.

Holland's existence is one long fight against the inroads of the sea. Much of the country is below the ocean level and has only been rescued from the waves by the colossal system of dikes. The Dutchman has grown so used to the water that oftentimes he is nearly an amphibious animal. Fifty thousand Hollanders live in barges on the canals. Even in winter, when the canals are frozen, these people stick to their boats, for they have no other home. The canal houses used to be towed by dogs, but now this work is done by men and women, each family towing its own boat.

Dutchmen are among the most expert navigators in the world. In utter indifference to the natural antagonism between land and water and in ability to make either contribute to their necessities, they have even excelled the English. At the relief of Leyden the prince of Orange, by breaking down the dikes and letting in the sea, made navigation feasible on a tract of ground which had formerly been dry land, and the strange spectacle was seen of the Dutch warships floating among the tops of orchards and past the chimneys of submerged houses.

When Holland was invaded by France another prince of Orange formed the plan of abandoning the country entirely and conveying all its population to the East Indies. Holland has always relied on the ocean as a security against hostile powers. In our own time a member of the Dutch royal family attended a great review of Prussian troops. Regiment after regiment of strapping fellows marched by, but all the Dutchman would say was, "Not so tall enough." Finally a grenadier regiment of unusually tall men came into the field. "Every one of these soldiers is over six feet high," remarked a Prussian officer to the Hollander. "Surely you will admit these are tall enough?" The Dutchman shook his head. "We can flood my country with ten feet of water," he observed. Doubtless the Prussian took the hint.—Buffalo Times.

The Umbrella.

The first umbrella ever seen in the streets of London was carried by the philanthropist James Hanway, who died in 1786. For many years after the introduction of umbrellas a man could not be seen carrying one without being hooted for his effeminacy, particularly when passing a hackney coach stand. The drivers of these vehicles regarded the umbrella in the light of a rival. For a long time coffee houses and inns were accustomed to keep a single umbrella of great magnitude for the purpose of shielding customers from the rain as they passed from the door to their carriages. This monstrous structure was carried by a waiter. It was not until about the year 1800 that the use of the umbrella became so general throughout Europe and America that a man could carry one without attracting the attention of passersby to a disagreeable extent. In Spain and Italy the article was first domesticated. France adopted it next and lastly England.—Spare Moments.

What Wagner Recalled.

A hard headed old manufacturer who made his fortune as he expresses it, "with his coat on," was lined by his daughters to accompany them to a Wagner concert, the first he had ever attended. The next day he happened to meet an acquaintance who had seen him the night before, who asked:

"I suppose you enjoyed the concert last night, Mr. Smith?"

"Yes. It took me back to the days of my youth," the old man said with a reminiscent sigh.

"Ah, summer days in the country, girl in a lawn dress, birds singing and all that?"

"No, the days when I worked in a boiler shop in Scranton."—Philadelphia Ledger.

London at Night.

There are few views which make a stronger appeal to the imagination than that of the Thames at night, seen from some point that gives a view of the historic towers of Westminster rising into the purple sky, and the long frontage of giant hotels, illuminated from basement to attic. The ugly features that crude daylight reveals are forgotten and the hum and bustle of the vast city reach one softened and poetized. It is the London of Whistler and Turner—an aspect of their own city of which many Londoners know nothing.—Home Messenger.

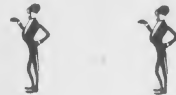

Unhappy Illustration.

"Johnny," said a teacher to a grocery man's six-year-old, "a lie can be acted as well as told. Now, if your father would put sand in his sugar and sell it he would be acting a lie and doing very wrong."

"That's what mother told him," said Johnny impetuously, "and he said he didn't care."

\$8.50 HEDGETHORN PUNCTURE-PROOF SELF-HEALING TIRES A SAMPLE PAIR TO INTRODUCE, ONLY \$4.80

The regular price of this tire is \$10.00 per pair, but to introduce us we will sell you a sample pair for \$4.80 each with the tread.

NO MORE TROUBLE FROM PUNCTURES. Nails, Tacks or Glass will not hurt the air out. Sixty thousand pairs sold last year. Over two hundred thousand pairs now in use.

DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined with a special quality of rubber, which never becomes hard and which closes so small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have never been punctured or even worn in a whole season. They weigh no more than an ordinary tire, the puncture resisting quality being given by several layers of this specially prepared fabric on the tread. The regular price of these tires is \$10.00 per pair, but for advertising purposes we are making a special factory price to you.

We will only \$4.80 per pair. All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We will send a cash discount of 10 per cent (thereby making the price \$4.32 per pair) if you send **FULL CASH WITH ORDER** and enclose this advertisement. We will also send one nickel plated brass hand pump. Please to return it O.K. or we will send you a new one. If you order a pair, please to return it O.K. or we will send you a new one. If you order a pair, please to return it O.K. or we will send you a new one.

IF YOU NEED TIRES don't buy any kind at any price until you send for a pair of Hedgethorn's. They are the best. We will send you a pair of tires at about half the usual price. **DO NOT THINK OF HAVING A BICYCLE** unless you have a pair of tires from Hedgethorn's. Write it now.

FOR KENTUCKY—Generally fair with moderate temperature, Tuesday.

The trial of Beech Hargis will be called at Jackson August 17.

Is it Chapin or Chaffin who is running for President on the prohibition ticket?

It is said that Judge Jno. L. Dorsey, of Henderson, will oppose Judge Thos. J. Nunn for appellate judge in 1910.

Senator William B. Allison, of Iowa, left no family and few if any blood relatives. He lived alone, giving all his life to the public service.

The Supreme Lodge, Knights of Pythias, chose Henry P. Brown, of Cleburne, Texas, supreme chancellor at Boston.

Judge W. P. Sandridge, of Russellville, will be a candidate against Judge Warner E. Settle, of the court of appeals, for re-nomination.

Joe L. Bristol, a former Kentuckian, three years ago deposed as fourth assistant postmaster general, has defeated Senator Chester L. Long, of Kansas, for re-nomination.

Commonwealth's Attorney John S. Lovett, of Marshall county, has two opponents for re-nomination, J. S. Ross and E. H. Puryear, both of Paducah.

Editor Wear, of the Murray Times, accuses Editor Lawrence, of the Cadiz Record, of telling "a lie out of the whole cloth." Cool off, boys, so off. It doesn't pay to call each other names.

The German people are pouring money in upon Count Zeppelin to build a new airship and he has already received about \$400,000 and has placed an order for two airships like the one destroyed.

Mrs. Margaret Castens, an aged St. Louis woman, has received \$15,000 as the result of a compact entered into by girl students of a German convent. Each girl agreed to deposit a certain sum yearly, the whole to be paid to the last survivor.

The following candidates paid \$1,000 each to enter the Democratic primary for Congress in the Sixth district: Joseph L. Rhinco, J. Linn Gooch, R. H. Elliston, John T. Hodge, Clifford Nadaud and Walter W. Cleary. The primary takes place August 22.

A negro man who shot off a pistol while walking on the street with a negro woman in Russellville was arrested by Sheriff Rhea and the county Judge fined him \$100 and fifty days in jail. The people of Russellville are in no condition just now to have their nerves disturbed.

Gov. Willson has pardoned Wainwright Lee, of Bracken county, who was fined \$75 for hitting a man who insulted him because he refused to pool his tobacco. The Governor says Bracken county is so dominated by night riders that Lee could not get a fair trial and that the county judge and county attorney are in sympathy with them and have done nothing in four months of flagrant disorder to restore peace or preserve order or protect the rights or liberties of the people in their county.

There is general rejoicing that Hon. Adlai E. Stevenson has been nominated for Governor of Illinois. Mr. Stevenson is a native of Christian county and though 73 years old is well preserved and in robust health. He is a statesman of national reputation and is undoubtedly the strongest Democratic leader in Illinois and one of the cleanest and best men in politics.

The Frankfort News says the Republicans are claiming the Second district and ridicules the idea. The district last year gave Hager 1700 majority, a loss of about 3000 votes. Stanley is stranger than Hager was, but a good deal of work will have to be done to bring out the full Democratic vote this year.

The loss in the Midway whisky fire was \$4,000,000 worth of whisky owned mostly by brokers, \$250,000 in buildings and barrels, \$2,486,000 in constructive government taxes and \$376,000 in State taxes, making the total loss nearly \$8,000,000.

Miss Marie Louise Harrison, of LaCrosse, Wis., was married a few days ago to S. Korikubo, Japanese nobleman, a graduate of two American universities.

The Bryan notification will take place at Lincoln to-morrow with simple ceremonies. Not more than \$500 will be spent by the local committee.

The American fleet of battleships has reached Auckland, N. Z., and there will be a week of festivities in Auckland.

Swager Sherley has been re-nominated for Congress in the Louisville district, winning an easy victory over Herman D. Newcomb.

In Russia there were 876 legal executions in the first six months of the present year.

Have you sacked your grapes? Bags for sale at this office.

Coudon Denies.

Replying to the charge that the trust is refusing to buy tobacco, Martin J. Coudon, president of the American Snuff Co., says:

"We are buying now, and have always bought, tobacco absolutely independently and with no connection, understanding, co-operation or agreement between us and any other buyer of tobacco. The reduction in our purchases at the present time is not a part of any plan to do anything to embarrass The Dark Tobacco Planters' organization, but it is simply and only due to the fact that we have already on hand a large surplus of tobacco suitable for our needs than we usually have, and as large a surplus as our business warrants us in carrying. This condition naturally diminishes our purchases, for the time being, and our action in this respect has been without any agreement, understanding, co-operation or consultation with any other buyer of tobacco whatsoever."

Keep the Chin Well Up.

One physical culture instructor in Boston, who is having great success in teaching round-shouldered girls to stand and walk erect, says the whole secret is in the way the head is held.

"Throw up your chin," is her rule. This throws the head upward and backward and the shoulders will naturally settle backward and in their true position.

Those who stoop in walking generally look downward. The proper way is to look straight ahead upon the same level with your eyes, or, if you are inclined to stoop, until that tendency is overcome, look rather above than below the level.

Mountaineers are said to be as "straight as an arrow," and the reason is because they are obliged to look upward so much. It is simply impossible to stoop in walking if you heed and practice this rule. You will notice that all round-shouldered persons carry the chin near the

STATUE REACHES

Frankfort.--Plans Will Be Made for the Unveiling of the Monument.

Frankfort, Ky.—The Niehaus statue of William Goebel, which will mark the grave of the dead Governor in the State cemetery here has arrived from the sculptor's studio in New York. The statue is ten feet in height, and will be placed upon the marble base which has already been erected over the grave. Plans will be made at once by the Business Men's Club for elaborate exercises at the unveiling of the monument.

A GOOD REPUTATION
"IS A FAIR ESTATE."

This Maxim is Well Applied to the Sun Brothers' Greater Progressive Shows, That Will Appear Here Aug. 20. Many New Features Will Be Exhibited.

The value of a good name as a trademark in winning the confidence and esteem of the public was never better exemplified than in the case of the Sun Brothers, Greater Progressive Shows this season. Wherever they have cast their tents and caravan, immense crowds have been in attendance. The show is bigger and better than ever. The arena features being enlarged and the animal department augmented by divers new and strange beasts from distant lands. The Sun Brothers' performance is always clean and interesting, and cannot fail to be instructive to every one.

For the 1908 tour will be found at each performance, the marvelous Atlas Troupe, a company of eight of the very greatest acrobats that ever appeared before the public. These exponents of acrobaticism, present a surprising series of entirely new and original feats, requiring strength, athletic skill and acrobatic agility. They execute with astonishing ease and grace the most daring, difficult and thrilling acrobatic acts imaginable. It cannot truthfully be said that the Atlas Troupe stand without peers in the arena firmament.

Besides this great act, there will appear, a pick of the world's output champions of every class. The roster of names includes the La Pasque Troupe, Francis J. Boyle & Company, the Lindsay Trio, Harvey and Adams, the Avallion Troupe E. Kirke Adams and Company, Miss Clorine Wenzell, Miss Josephine, Miss Belle Young, M. Cahill, Orton, Fred Kenno, Sisters Ortna, Frederick Wright, Theo. Arthur, A. C. Mullens, Jack Young, William O'Dale, Frank F. L. Vell, D. H. Gillespie, Miss Gillespie, Walter and Minnie Ashborn. All of these people will appear at each exhibition, and they are among the best performers, that can possibly be engaged.

In the morning at 11:30 o'clock, there will be offered on a magnificent plaza erected in front of the main entrance, a series of extraordinary free exhibitions. It is announced that they will be best outdoor fetes ever before given to the public gratuitously.

The doors for the "Main Top" performance will be opened at one o'clock, and the Matinee will start promptly at two o'clock. At night time the programme will start at eight o'clock and the doors will be open at seven o'clock.

Walton on Butt.

Jailer Butt, who let a mob take four helpless negroes from his charge without resistance or outcry, says in an interview: "The jail is perfectly safe. Tre troops are not needed in Russellville." That may be true, but from all reports jailer who respects his oath and is mindful of his duty to prisoners, is sadly needed there. Jailer Butt of all men should know when to keep his tongue in his mouth. The rest of the State is not regarding him with much respect.

PRONOUNCED HIS CASE INCURABLE

Whole Body Raw with Eczema—Life was Intolerable—Was Even Incased in Plaster—Discharged from Hospitals as Hopeless.

SUFFERED 14 YEARS CURED BY CUTICURA

"From the age of three months until fifteen years old, my son Owen's life was made intolerable by eczema in its worst form. He was all right until a red rash broke out on his forehead, but we were not alarmed at first. Very soon, however, the rash began to spread over his head and shoulders, and I caused him great discomfort. I took him to a doctor and tried half a dozen other treatments, all with the same result: no improvement at all. The disease gradually spread until nearly every part of his body was quite raw. We had to strap him down in bed, for he would tear himself dreadfully in his sleep. The agony he went through is quite beyond words. No one thought we would rear him. The regimental doctor, a very clever man, pronounced the case hopeless; at least, he said the only hope was that he might, if he lived long enough, outgrow it to some extent. We had him in hospitals four times and he was pronounced one of the worst cases, if not the worst, ever admitted. From each he was charged as incurable. In fact he got worse under the successive treatments. At one hospital they incased him in plaster, and this seemed to aggravate the soreness terribly. He looked so badly that no one liked to go near him and his life was a burden to him. We were trying remedy after remedy, but we had got almost past hoping for a cure. Six months ago we purchased a set of Cuticura Soap, Ointment, and Resolvent Pills and persevered with them. The result was truly marvelous and to-day he is perfectly cured, his skin not having a blemish on it. I am, Mrs. Lily Hedge, 51 Vaughan Road, Coldharbour Lane, Camblewell Green, Eng., Jan. 12, 1907."

Insurance Statistics.

The National Board of Fire Underwriters gives some interesting statistics for 1907. The total property loss in the United States for 1907 is reported as \$199,383,300, while for the past five years the destruction of values by fire in the United States has amounted to \$1,257,716,955, or an average of over \$251,000,000. In the United States, as a whole, the average per capita loss for five years ending Dec. 31, 1907, was \$3.02.

The result in thirty foreign cities gave a per capita loss of \$3.61 as against \$3.10 in five years' average of 252 cities in the United States.

Taking the number of fires to each 1,000 population in the same cities, our committee on statistics found it to be 4.05 in the American cities, as against 0.86 for those of Europe, showing also that, in point of frequency, fires here are far in excess of those abroad. Practically all fires are confined to the buildings or place of origin in the European cities, while such is far from being the case in the United States, due largely to the low standard of construction.

If in the future the insuring public will use their influence to secure proper building laws, such as are outlined by the National Board Building Code, more efficient water supply and better fire department equipment, the destruction of property by fire would be materially decreased and the cost of insurance to property owners thereby lessened.

TAKES OATH OF NIGHT RIDERS

Witness Tells How He Was Forced Into the Organization.

TRIAL OF JAKE ELLIS.

Moses Thornton Describes Masks of the Night Riders.

Murray, Ky., Aug. 8.—The trial of the alleged night rider, Jake Ellis, is now in progress. The jury was completed this morning. The witnesses were placed under the rule and Commonwealth's Attorney Denney P. Smith, stated the case in which Ellis was charged with confederating with for the purpose of intimidating them.

The following witnesses were examined for the Commonwealth: Jas. L. Whitlock, Clarence Dyer, W. B. Stewart, Willie Dyer, Moses Thornton, Conn Thornton, Mrs. Marvis Outland, Frank McDougle, Filix Garland, A. N. Holland, A. S. Brooks, L. W. Holland. The first three stated substantially the same thing, that they were forced to join the night riders.

Whitlock said that he was called upon by Jake Ellis on the fourth Monday in March and asked if he didn't want to join the night riders. He answered, "No, by G-d, I don't."

OATH OF NIGHT RIDERS

In his testimony in the trial of Jake Ellis, the alleged "night rider," at Murray, Ky., Wiley Stewart said the following is the night rider oath he heard administered:

"I, in the presence of Almighty God, these witnesses, do solemnly promise and swear to become a member of this order. I do solemnly promise and swear that I will not reveal or cause to reveal the secrets of this order by signs, lips or writing. I do solemnly promise and swear that I will obey all orders that are given me by the captain and that I will go at any time they may call upon me unless I or my family are sick. If I should betray this order in any way I shall have to submit to the penalty, which may be put upon me, which is death. To all this I do most solemnly promise and swear, so help me God."

The halting sign is "Silent Brigade." The test, "I see you have been there." The answer, "Yes, on bended knee."

W. B. Stewart testified to having made the same oath, and he was given the signals, passwords, grips, etc. He states that he was told their camps were always guarded and when he was challenged he would be admitted by saying "Silent Brigade," and that in a crowd recognized by three short whistles.

THORNTON TELLS OF VISIT

Moses Thornton, who was called upon the morning of April 9, between two and three o'clock, said he recognized Jake Ellis, Henry Taylor and Will McClure. He said there were fifteen or twenty of the men in sight and that he was confident more were lurking about the premises. His son and daughter were introduced and bore out his statements.

Judge Cook ruled out the letters that were attempted to be introduced by the Commonwealth, claimed to have been found in the possession of Jake Ellis and which he attempted to pass out to his friends.

Judge Cook ruled that the proof of general conspiracy is only relevant when the defendants are connected with it, and after having considerable testimony ruled out the prosecution asked for delay to bring a witness who could testify that a certain captain had commissioned Ellis to organize the county. Judge Cook said if that could be proven the testimony would be admitted.

SENSATIONAL TESTIMONY

The greatest sensation to-day was produced by the statement of Wiley Stewart who told of a plot to take Murray with 350 volunteers from Trigg county and whip Henry Dees a banker, because he did not accede to all their terms for advancing money on association tobacco. Incidentally they were to take a whack at the backs of Griffin and Pitts, tobacco buyers. Stewart said this raid was postponed, although Joe Bell and Clay Garland returned from a trip across the river with the information that the 350 men, with a wagonload of guns, were at their disposal. All this, and the warning to Al Perry, afterward whipped, was planned at a meeting he attended. He said he saw them take up a collection of \$60 to remunerate the emissaries for their trouble.

Stewart described how he had to take the oath, and disclosed the names of men he met in the meeting of the "lodge." He said the purpose of the organization was to compel planters to join the tobacco association and to prevent any from leaving it. He said at a meeting it was said they needed a total membership of 3,500 in the various counties.

WHITLOCK'S EVIDENCE.

J. L. Whitlock in his testimony described in detail the visit of Jake Ellis and Van Elkins to his home the fourth Monday in March, ostensibly for the purpose of trading horses. The three went to the stable to see Whitlock's stock, and there Ellis, he said, asked him if he would not like to join the night riders. Whitlock replied that he would not. Ellis said he must, and that they were two to one, and could just as well be 250 to one if the occasion should demand. According to his testimony, Ellis said they wanted Whitlock in the band because he was night operator at Shiloh and they wished the telephone disconnected during raids. Whitlock then told of the oath of secrecy.

DRAMATIC SCENE IN COURT.

Moses Thornton pointed his finger at Jake Ellis and dramatically declared Ellis was with the party that visited him in March. He also identified William McClure as the captain, distinguished by a black mask and an untidy tablecloth draped about his person. Thornton had received notice and replied that he would not raise any tobacco. On this particular morning he said he was aroused by shouting and appeared at the door with a lamp in his hand. He saw the men, wearing black masks and heavily armed, and still more around the barn. He was commanded, "Throw up your hands," and held the lantern aloft, while in obedience to a further command he called his grown son to the door.

Thornton said he was asked if he had not said he would not raise any tobacco. He replied in the affirmative. "You must put out four acres and put it in the association," he was told. He was warned that if he did not do so as they said he would be pounded "until your body won't hold shucks, and then we'll hang you."

According to the confession of Will Ingram, another of the witnesses, night riders in the eastern part of Calloway county used the Center Ridge church for an arsenal, and they met there February 15 to start to the home of D. M. Hendrick, on the Tennessee river near Pine Bluff. He said Bob Duncan, Ed Thompson, Jasper Garland and Kelsie Kirk were in the band which burned Hendricks' barn, but they got an empty one.

Ingram said he made his first confession to Captain Walker, of the State militia, at Golden Pond, Trigg county.

TESTIMONY RULED OUT.

Most of the time today was taken up by the prosecution getting up a record on which to appeal the case. Judge Cook has refused to permit the admission of testimony implicating the defendants in any raid subsequent to the Moses Thornton said. The prosecution has placed Al Perry and Frank Mardis, who were whipped by C. L. Evans and others on the stand and asked them questions which they were not permitted to answer. Joe R. Benson said Jake Ellis told him he would give \$150 to have been on the Howard Morgan raid. D. M. Hendrick, concerning the barn burning of whose barn Ingram testified, produced the following note as the one he received just before the burning: "Mr. Hendrick.—January 25, 1908: You will please put your tobacco in the association and stop so much talking against the association, and stop now. Don't deliver what you have sold already. If you do we will whip you sure, damn you. Kirksey night riders."

The commonwealth has closed its side of the case and the defense will finish Monday.

PROVING HIMSELF.

Feet of a Pioneer Who Was Hale in His Old Age.

It is a wise man who proves his words before he speaks them. A story of an old Pennsylvania settler shows shrewdness in this direction as well as a pardonable pride in prowess. The hero of the anecdote was Gabriel Schuler, a pioneer who was hale in his old age.

One day Schuler broke in upon a company of farmers who were gathered in a workshop. The old man carried an ax on his shoulder.

"Let some one turn the grindstone for me," he said.

For a long time he sharpened the instrument, with the greatest solemnity. Some present thought he had lost his senses. Finally he shouldered the ax and said:

"Let each one follow me."

"The farmers thought that this summons might mean that an attack was to be made on the Indians, and they asked:

"Shall we take arms?"

"Do as you please," replied Schuler.

Each man seized his rifle and followed the old settler. He led them to an open place in the woods.

"Xok," said Schuler, stopping.

"Let each go into the woods and select a fine, large tree. When you hear my trumpet, return."

The men, wondering, did as they were bid. When the trumpet blew they gathered once more about Schuler.

The sage told the farmers, examined each tree selected.

"Many of them are very fine," he pronounced, "but none equals this oak."

So it was. He had picked out the finest. He threw off his jacket and began to cut. When he had hewed halfway through he changed his ax from his right hand to his left and went on without changing position or saying a word. In an hour he had cut way through, and the tree fell.

Mounting the stump, Schuler addressed the farmers:

"Today I am a hundred years old, and I would bear evidence of my strength. I would like to have your promise that the tree shall stay as it fell."

The old man's request was granted, and the prostrate oak remained for many years to be a monument to the strength of the century old Pennsylvanian.

Schuler lived nearly ten years after this incident.—Youth's Companion.

No Need to Worry.

Mrs. Smith, on retiring to rest the other night, heard her husband pacing up and down his dressing room in an evidently perturbed state of mind.

"Jack," she called out, "aren't you coming to bed?"

"No," was the curt reply.

Awaking after her first sleep to find Mr. Smith still pacing up and down like a caged animal, she called out, "Jack, what is the matter?"

"Matter enough," replied her husband in a despondent voice. "I've got that bill of Tom Jones' coming due tomorrow for £500, and I have not a farthing toward it!"

"You stupid fellow! Come to bed at once! It's Jones who ought to be walking up and down, not you!"

The Types of Cats.

There are a number of classes of Persian cats, but the most common are being purely arbitrary and based on the color of the fur. The most beautiful of all the Persians is the pure white. They are, however, very hard to keep clean, and a dirty white cat is certainly anything but an ornament about one's rooms. It is unfortunate that many white cats are deaf, so when one is making a purchase of a cat that color it is a wise precaution to test the hearing. Another failing which white cats have, in common about one's rooms, is that their constitutions are not so vigorous as those of the dark haired cats.—Suburban Life.

The Caddie's Patriotism.

Within limits the patriotism of caddies for their own links is to be admired, but in the following story, told by Mr. Sidney Fry, it seems to be carried a little too far:

At Romford, when the Essex ladies were playing against the ladies from Hampshire, one of the home team's caddies made a very high two for his employer to play from. After the lady had made a bad drive she said to her caddie, "If you make such high tees Hampshire will beat us."

The caddie replied: "I beg your pardon, miss. I thought you was Hampshire."—London Globe.

Concealing His Ignorance.

In order not to expose his ignorance the schoolboy gave an ambiguous reply when asked in examination, "Which was the greater general, Caesar or Hannibal?" The boy answered, "If we consider who Caesar and Hannibal were and ask ourselves which of them was the greater, we must unhesitatingly answer in the affirmative."

BUSYBODIES VS. TRUTH.

Here Are The Facts—Judge For Yourself.

Busybodies who see in success only failure, who, without making an effort to inform themselves, hastily cry offense against honesty and truth—soon to forget that a safe against the influence of thousands of chattering, meddling women will know they have been helped and cured by Dr. Pierce's Favorite Prescription. It is not a "patent medicine" in any sense. It is simply the favorite remedy which Dr. Pierce used in an extended practice for the treatment of the diseases peculiar to women.

Truth and Influence. A name for honesty and square dealing is better than great riches. Fraud is a bubble that soon bursts. Dr. R. V. Pierce has always been known to the truth—his famous medicines are founded on the rock of public approval and have thousands of truthful testimonials as to their ability to cure diseases for which they are recommended.

True Speaking. No man ever lost a prospect by telling the truth. In the long run Dr. Pierce believes the truth will prevail and he is therefore not afraid to make public his formula.

Valuable Trade Secrets. The ingredients of Dr. Pierce's Favorite Prescription are given to the public. He vindicates his excellence and harmless character of his medicines by letting the world know just what they are taking when they use this reliable and serving for the diseases and illnesses peculiar to females. These ingredients are combined in just the right proportion to make an infallible remedy, without the use of a particle of alcohol, and they are as follows: Golden Seal root, Black Cohosh root, Unicorn root, Blue Cohosh root, Lady's Slipper root, with chemically pure glycerine of proper strength for extracting and preserving the active medicinal principles residing in the above native roots.

Dr. Pierce's Favorite Prescription is not quite as strong enough, as in obstinate constipation, the little, pleasant, sugar-coated Pellets which are taken to aid the "Prescription." One or two for a laxative, two to three for a cathartic. They alone have been known to cure many bad cases of stomach trouble, dyspepsia and indigestion. They act on the liver and regulate the bowels. Put up in glass vials, corked, therefore, always fresh and reliable. **Pleasant Pellets.**

SIX GREAT DAYS AT THE KENTUCKY STATE FAIR.

The Special Days program has been announced, with Fred W. Kelsker, President of the Louisville Commercial Club, as general chairman of the Special Days committee. The first day will be known as Governor's Day and School Children's Day. It will mark the dedication of the new \$100,000 Live Stock Pavilion, which is now nearly completed, and which when finished will be by far the greatest exhibition hall in America. It is a building which will reflect credit not only to the management of the State Fair, but to the state itself. The ceremonies will include an address by Governor Wilson and in all probability a number of other distinguished speakers will be present on that occasion. School children will be admitted that day for 10 cents, and Prof. H. C. McKee, President of the Kentucky State Educational Association, who is chairman of the first day's program is endeavoring to get out the largest attendance of children ever seen on a fairground in a single day.

Tuesday, Sept. 18th, will be College Day and Fraternal Day. Prof. F. Paul Anderson of the State University at Lexington, is chairman, and James B. Norton of Louisville, vice chairman for that day. On account of the very low railroad rates, the largest attendance of college students than usual is expected, and Prof. Anderson is actively working for large delegations from all the various college institutions in the state. All the fraternal organizations of Louisville and other cities and towns of the state are invited to join in an effort to make this one of the biggest days of the fair. On this day the judging in all departments will begin. Horse and cattle awards will be made in the new show pavilion, while all other livestock, poultry and other departments will be judged in arenas especially prepared for that purpose.

Wednesday, Sept. 19th, will be Louisville Day and Southern Indiana Day. Mayor James F. Grinstead of Louisville will be chairman, and Jacob Best, mayor of New Albany, and E. N. Flynn, mayor of Jeffersonville, vice chairmen. The mayors of all three cities will issue a half-holiday proclamation. In addition to the many attractive horse rings, Jack stock, Hereford and Angus cattle, Ayreshire cattle, Durck-Jersey and Chester White Swine, Hampshire, Colored and American Merino sheep will be judged.

Thursday, always the largest in attendance of the week, will be known as Kentucky Day and Press Day. On no single day or week in the past are so many fair-goers in the city as on this day.

LIGHTEST SALES LAST WEEK.

Tobacco Sold On the Local
Market Brought Good
Prices, However.

QUOTATIONS ARE FIRM.

Growing Crop Conditions
More Favorable Since Re-
cent Heavy Rains.

The sales on the loose tobacco market the past week were light. The salesman for the association reports sales of 28 hogheads, the smallest sale for one whole week this season. Prices, however, were firm, as the following quotations show:

Lugs \$7 to \$10, and leaf, \$10.50 to \$13. Association receipts for the week were nine hogheads.

The Society of Equity also reports a quiet week, with small sales, but the tobacco disposed of brought full prices.

The recent rains have proven a great benefit to the growing crop and the weed is now growing right along. In some sections tobacco will be ready for the knife in about ten days, but much of that transplanted later will not be ripe until September. Some very late planting cannot be cut until October. There has been such an improvement in the crop situation since the ground was well soaked with water that indications now point to a much better yield than was expected some weeks ago.

The first and second ball games of the series of three, played at Mercer Park, between the local nine and the Draughton team, of Nashville, resulted in a victory for Hopkinsville. In the first contest the score was 4 to 2 in favor of the locals and in the second game the visitors lost by a score of 5 to 4. The third game of the series was played here yesterday afternoon, but the contest had not been finished when our forms closed.

Several games are scheduled for this place during the next ten days. The first series will be between the locals and the Fox Ridge team, Nashville. The date has not been fixed, but it is likely that this team will be here the latter part of the week. Next in order will be the Madisonville aggregation, then the Morganfield team, and later the Princeton nine will play the local team.

Harrodsburg, Ky., Aug. 10.—Opinion is growing against raising the prices to the fifteen-twenty to twenty-twenty-five cents at the Winchester meeting. The Mercer County Board of Control will discuss the matter at a meeting to-day, and it is certain that the growers will take a stand against the raise.

The farmers say that fifteen-twenty is plenty, and that if they attempt to raise, the tobacco they have already disposed of may be turned back on them.

Other counties agree with Mercer, and it is no more likely that the raise will pass at Winchester than that the no-crop 1909 movement will carry. The farmers in this region say that they do not want to exceed moderation in their demands.

SHAKE-UP IN OFFICES.

I. C. Makes Changes at
Princeton.

Princeton, Ky., Aug. 10.—A change in Illinois Central railway officials took place here. Assistant Superintendent L. E. McCabe, of the Nashville division, being transferred to the Paducah and Evansville division with headquarters at Paducah. The assistant superintendent's office of the Nashville division and the trainmaster's office at this place have been abolished. This will let out several office men and, added to the change of several weeks ago, will make things pretty dull in railway circles here.

BIG SUIT

Result of Alleged Damages
Sustained Near Mannin-
ton.

N. N. Richardson has filed suit against the L. & N. railroad company for \$5,000 damages. He alleges that while he was in the employ of defendant company as section hand, at work near Mannington, about a year ago, operating a scraper, he was injured as a direct result of the gross negligence of the defendant in failing and refusing to furnish the plaintiff a scraper in a reasonable safe condition for dumping and to have it properly loaded for said work.

The action was brought at Madisonville and will be tried at the next term of the Hopkins Circuit court.

FIFTY YEARS AGO.

Frost Which Killed Tobacco
and Brought Riches to
Paducahans.

Fifty years ago this morning there was a very heavy frost throughout this section, and which killed all the growing tobacco in Kentucky and Tennessee. The fact of the killing frost was watched by Watts, Given & Co., brokers and bankers, of this city, and before sunrise that morning they had closed a deal for all the tobacco in New York City at a nominal price, most all the precious crops at that time having accumulated there. The firm made an immense fortune out of the deal.—Paducah News-Democrat, Aug. 9.

Sunday Ball.

A protest was made against the game of baseball played in the city Sunday, by a committee of citizens, but the city has no ordinance bearing on the subject and the Mayor could take no action. It is likely that the council will be asked to pass an ordinance prohibiting Sunday ball in the city. No admission was charged to the game Sunday, but a
